PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA**CLERK'S OFFICE****REVISED NOTICE OF FILING AND HEARING AND PREFILE DEADLINES****DOCKET NO. 2018-318-E****DUKE ENERGY PROGRESS, LLC – Application of Duke Energy Progress, LLC for Adjustments in Electric Rate Schedules and Tariffs**

On November 8, 2018, Duke Energy Progress, LLC (“Duke Energy Progress” or the “Company”) filed an Application with the Public Service Commission of South Carolina (“Commission”) requesting authority to adjust and increase its retail electric rates, charges, and tariffs. The Application was filed pursuant to S.C. Code Ann. §§58-27-820 and 58-27-870 and S.C. Code Ann. Regs. 103-303 and 103-823.

In its Application, Duke Energy Progress seeks rate changes to increase annual revenues by 10.3% or \$59 million, to be updated to account for known and measurable expenses for grid investments of approximately \$5.1 million in 2020 and \$5.8 million in 2021. The Company states that recent work to modernize the electric system, generate cleaner power, responsibly manage and close coal ash basins, and continually improve service to customers have made it necessary to request a net increase in retail revenues. The Company's request includes \$10 million in net tax benefits resulting from the Federal Tax Cuts and Jobs Act. The Company states in its Application that its request is driven by capital investments and environmental compliance progress made by the Company since its previous rate case, including the further implementation of the Company's generation modernization program, which consists of retiring, replacing and upgrading generation plants; investments in customer service technologies; and the Company's continued investments in base work to maintain its transmission and distribution systems. The Company states that its request includes an increase in revenues of approximately \$38 million for capital additions incurred since its last rate case through December 31, 2018.

The Company also requests approval of its proposed Grid Improvement Plan, approval of a Prepaid Advantage Program, and a variety of accounting orders related to ongoing costs for environmental compliance, advanced metering infrastructure deployment, grid investments between rate changes, and regulatory asset treatment related to the retirement of a generating plant located in Asheville, North Carolina. Finally, the Company seeks approval to establish a reserve and accrual for end of life nuclear costs for materials and supplies and nuclear fuel.

Duke Energy Progress requests that the proposed increases be effective on June 1, 2019. According to the Company's proposal in the Application, a typical residential customer using 1,000 kWh will see an increase of approximately \$17.91 per month beginning with the rate effective date in this case, requested to be June 1, 2019, and then an increase of \$1.60 per month beginning June 1, 2020 and an additional \$1.81 per month beginning June 1, 2021, to incorporate costs for grid investments per the Grid Improvement Plan described in the Application. Page 19 of the Application describes the Grid Improvement Plan, which can be described, in part, as a long-term initiative built upon strategic, data-driven investments to improve reliability to avoid outages and speed restoration; harden the grid to protect against cyber and physical threats; and to expand solar and other innovative technologies across a two-way, smart-thinking grid. The Company proposes additional rate changes in 2020 and 2021 to reflect the remaining years of the multi-year plan, with costs captured in a regulatory asset for recovery between rate changes. Duke Energy Progress proposes an increase in the Residential Basic Facilities Charge from \$9.06 to \$29.00 per month effective June 1, 2019.
